**Subject:** court order re: [REDACTED]

Thank you so much for your assistance in this matter. The evidence in this case has already been analyzed. The court order which allows for defense counsel observation of drug analyses classes A-E would be incredibly disruptive to laboratory operations, requiring an analyst to suspend testing and walk through the various procedures with the attorney. The laboratory simply does not have the resources to conduct tutorials for each defense attorney in the state.

I appreciate your willingness to oppose this motion. Jim - if Mr.. McGuire contacts you to schedule a visit, please refer him to Assistant District Attorney Frank Dunn.

Thanks again,  
Julie
